29897GE1 - GE2

Memory Speakerphone w/Digital
Messaging System & Call-Waiting
Caller ID¹

Features

Digital Messaging System with up to 10 Minutes
Recording Time and Voice Time/Day Stamp

Call-Waiting Caller ID¹ with 99 Name-and-Number
Memory

Digital Flash Memory Technology

Play All/New Function with Selective Erase

10-Number Memory Plus 3 One-Touch Emergency
Numbers with Convenient Memory Index

Auto Disconnect with Call Screening

One-Touch Redial

Benefits

Digital microchip provides instant playback of messages.
Counter shows number of messages received. Voice
stamp recites time and day each message received.

Display shows name and/or number of person calling.
Memory holds information for up to 99 calls.

Saves numbers in memory during power interruptions.
Batteries not required to protect memory.

Play all messages or just new messages. Can also
selectively erase messages you don't want while keeping
those you do.

Speeds dialing of frequently used numbers. Memory
index is a paper template for keeping track of numbers
stored in memory.

Outgoing announcement automatically stops and resets
when any phone in the house is answered. Call
screening allows you to listen to caller leaving message.

Quickly redials the last number dialed.
